THE DECISION OF TRUMP WILL NOT STOP CLIMATE ACTION BARBARA HENDRICKS SAID

GERMAN ENVIRONMENT MINISTER

Paris, Wahsington DC, 02.06.2017, 01:27 Time

USPA NEWS - Comment by Federal Environment Minister Barbara Hendricks on US President Donald Trump´s decision to withdraw from the Paris Agreement. "I regret the President´s decision. The damage this causes to multilateral cooperation is even more severe than the damage done to international climate action." The minister stated.

Climate action will continue and will not be stopped by this decision. Large parts of the business sector in the US are already gearing themselves up for a greenhouse gas-neutral future. They recognise the immense economic opportunities which that future offers. They will not be moved away from their path by their President's decision.-----

Internationally speaking, however, the US is leaving us with a leadership vacuum. Over the years, the US has been a valuable ally on global climate action. Without the United States, the historic breakthrough in Paris would not have been possible. But the Paris Agreement will endure, even without the US. Others will lead the way and we Europeans will certainly be among them." Source Federal Environment Ministry- Germany
