One major crime by the Islamic Republic of Iran

Armita Garavand

Hamburg, 28.10.2023, 13:16 Time

USPA NEWS - It has been 14 months since the name Mahsa Amini has been heard all over the world. However, the world remained largely silent when the terrorist regime of Ali Khamenei once again claimed the life of a beautiful 16-year-old girl with great aspirations, solely because her hair was visible.

28 days ago, agents of the morality police in Tehran's in metro station have beaten her, and she fell to brain death same time

Today, due to public pressure, the Islamic Republic had to inform in their media to Iranian people's

the death of the 16-year-old girl

(Armita Garavand)

whom they had kept fake alive for 28 days using medical devices.

How should crimes against humanity be defined?

The Islamic Republic of Iran is still unwilling to release the surveillance footage from inside the metro that would reveal who assaulted this young girl. It's a tragic situation that has garnered international attention and condemnation.

Say her name : Armita Garavand

Women Life Freedom

Will human rights organizations remain silent in the face of crimes committed by the Islamic Republic and its leader, Ali Khamenei? Are they willing to sit down and negotiate with such a totalitarian and brutal regime? Are human rights-supporting countries staying silent in the current conditions of war, where the Islamic Republic openly and overtly supports terrorist groups like Hamas and Hezbollah?

Armita's only "crime" was that, on her way back from school to home, she briefly didn't observe full hijab while in the metro, and today, she has been killed.

Armita Garavand is another victim of Iran.

People in Iran are truly imprisoned and held hostage by the Islamic Republic and Ali Khamenei. Do you remember the killing of Kian Pirlalak, a 10-year-old Iranian boy who was shot and killed by Iranian police with a direct gunshot? Do you remember the murder of Khodanur Lejeei, a 28-year-old man who, after being detained for two days and tied to a rail in prison, died of thirst?

Have you seen the evidence where some individuals, after the protests in the Islamic Republic of Iran, managed to leave the country and undergo surgeries in European countries due to bullet wounds fired by the Iranian regime during the protests?

Should the IIRCG, a designated terrorist organization, carry out any more acts that would place it on the list of terrorist organizations? What more should be needed for countries to understand the dangers posed by the brutal and repressive regime of the Islamic Republic of Iran and its leader, Ali Khamenei?

Freedom , and Regime change for Iran

If the Islamic Republic and the IIRCG were subject to more extensive sanctions and listed as terrorist organizations last year, would there be a war in Israel today? When the President of Ukraine declared that Russian military drones were being supported from Iran, did major world powers take this threat seriously? Khamenei and his terrorist minions dared to pose a threat to the national security of the world's countries today. Why did nobody listen to the people's demands in the past year? Can the people of a country make a mistake about the policies of their dictatorial regime? For several years, the people of Iran have explicitly stated that the Islamic Republic of Iran, Ali Khamenei, and the terrorist IRGC pose the greatest danger to humanity and the world's nations. Why did no one heed their words? Is it better to be an Iranian under the oppressive rule of Ali Khamenei or to be free? If the Islamic Republic of Iran

did not exist today, would the world's economy be in such turmoil?

Let's see the disgrace with Islamic Republic of Iran and Terrorist Organization of IRCG

Let's see the horrifying state of the Middle East.

When the honorable President of the sacred country of Israel declared that the Islamic Republic is a threat, and no one listened, what was the reason?

See, the Islamic Republic commits crimes every day.

Why do the embassies of this totalitarian and dictatorial regime remain open in all countries supporting human rights?

Why doesn't this ruthless government be treated the same way as other terrorists?

Does the Islamic Republic of Iran differ from other terrorist organizations?

The Islamic Republic of Iran is the biggest sponsor of global terrorism, and Ali Khamenei is a harsher dictator than all the historical dictators.

Stay in the right side of the history

Let's request our countries to explicitly declare that the continued existence of this terrorist regime in Iran can have a high cost for the entire world. It can increase the number of terrorist attacks and the killing of innocent people in all countries around the world every day.

We should not ignore the Islamic Republic of Iran at this moment. It's the right historical time to stand alongside the people of Iran for regime change. We must believe that the Islamic Republic is a massive cancerous tumor and its presence and survival pose a far more dangerous threat to other countries than any profitable deal.

Let's unite to build a world and a planet full of peace and tranquility. Let's help the environment and Mother Earth together.

Let's unite to bring down the terrorist Ali Khamenei from the seat of power and acquaint Iran with a new system that only speaks of peace.

In hope of freedom and tranquility for all countries, which is the greatest and most beautiful wish for all of humanity.
