#### \$5.2 million to Root Capital for 5 year

Paris, Washington DC, 27.09.2016, 23:04 Time

**USPA NEWS** - The Foundation has committed \$5.2 million to Root Capital over five years to support early-stage agricultural businesses that generate transformational impact in rural communities in Ivory Coast, Ghana, and Senegal.

Specifically, Root Capital will collaborate with The MasterCard Foundation to:

- 1 Accelerate the bankability and growth of more than 100 high-impact, early-stage agricultural businesses with capital needs under \$150,000 and/or business revenues under \$300,000;
- 2 Pilot an expanded set of advisory services, including leadership development of agribusiness employees; financial literacy training for smallholder farmers; mobile technology and mobile money; and empowering local microfinance institutions to better serve the agricultural sector; and
- 3 Contribute to sector learning by developing a framework for documenting and analyzing the costs and impacts associated with early business growth in the agricultural sector.

This initiative will help address the urgent need of early-stage West African agribusinesses for capital and capacity building. With an estimated 48 million smallholder farmers in sub-Saharan Africa, however, who remain disconnected from such businesses and the stable sources of income they offer, a great deal of work remains to be done.
